Bellevue, USA, July 20, 2020

I, Irina Totterman (date of birth 28/02/1973) allow my son, Vitaly Kondulukov to pick up the results of my brain images downloaded on CD disks that are necessarily to compare my present imaging results. At the present time I live in USA and cannot pick up myself.

Please, download three imaging results taken only in 2013-2014 by request of Dr. Sirhan:

1. Brain KT with contrast
2. Brain MRI with contrast
3. Brain Angiography (from March 2014)

Sincerely,
Irina Totterman
